- 1. A scent-free and camouflaged latex glove comprising:
- a single layer of latex forming a cuff portion, a palm portion, a thumb and four fingers defining each glove;

the glove having an exterior surface comprising a single base color; and

the glove having randomly sized and shaped patches of accessory colors other than the base color coated on the exterior surface and defining a camouflage pattern;

whereby a wearer of the glove is protected from leaving a scent on objects touched by the glove, from emanating human scent from a hand inside the glove, and from contacting dangerous bacteria, viruses and biological hazardous materials with the gloved hand.

- 2. The scent-free and camouflaged latex glove according to claim 1, wherein the glove is symmetrical and adapted for being worn on either a right or left hand.
- 3. The scent-free and camouflaged latex glove according to claim 1, wherein the glove has a textured surface.
